

Year 5 Home Learning Grid
Stargazer – What lies beyond the earth?

Learn a mnemonic which helps you to remember the order of the planets.	Create an information leaflet about one of the planets in the Solar System.	What does an astronaut need to wear when they travel into space?
Listen to 'The Planets' classical music written by Gustav Holst. Which one is your favourite?	Write a newspaper report about the first space landing.	Imagine you met an alien! Can you draw what they looked like and write a description?
Make a model of the solar system	Find out facts about the space missions: What was the first creature sent into space? Who was the first astronaut? Who was the first man on the moon?	Keep a sky at night journal for a whole week. Write about everything you can see in the sky. You could draw a picture of the moon every night. Does it change over the course of the week?

The home learning grid gives a variety of creative tasks for the children to choose from, which link to their topic for the term. We suggest that children choose one to complete, however should they wish to complete more, we recommend no more than three. These tasks are optional and should be chosen in addition to, not instead of, the English and Maths key learning tasks.

Home learning is due in by the last day of term.
