

River Primary School

PSHE (Personal, Social, Health Education) Policy

(including Relationships and Health Education statutory from September 2021, and our position on Sex Education)

Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

PSHE

What is PSHE Education?

PSHE Education (Personal, Social, Health and Economic Education) is a planned programme of learning through which children and young people acquire the knowledge, understanding and skills they need to successfully manage their lives – now and in the future. As part of a whole-school approach, PSHE Education develops the qualities and attributes pupils need to thrive as individuals, family members and members of society.

What do schools have to teach in PSHE Education?

According to the National Curriculum, every school needs to have a broad and balanced curriculum that:

- promotes the spiritual, moral, social, cultural, mental and physical development of pupils at the school;
- prepares pupils at the school for the opportunities, responsibilities and experiences of later life;
- promotes British values.

From September 2021, primary schools in England also need to teach Relationships and Health Education as compulsory subjects and the Department for Education strongly recommends this should also include age-appropriate Sex Education.

Schools also have statutory responsibilities to safeguard their pupils (Keeping Children Safe in Education, DfE, 2019) and to uphold the Equality Act (2010), and the Jigsaw programme accounts for this requirement.

What is Jigsaw, and how does it work?

Jigsaw is a whole-school approach and embodies a positive philosophy and creative teaching and learning activities to nurture children's development as compassionate and well-rounded human beings as well as building their capacity to learn.

Jigsaw is a comprehensive and completely original PSHE Education programme which also includes all the statutory requirements for Relationships and Health Education, and Sex Education is also included in the Changing Me Puzzle (unit).

The aims of PSHE for all children are to:

- To build their capacity for learning by providing pupils with the knowledge, understanding, attitudes, values and skills they need in order to build and extend their potential as individuals and within the community.
- To promote the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- To prepare pupils for the opportunities, responsibilities and experiences of later life.

Jigsaw brings together PSHE Education, compulsory Relationships and Health Education, emotional literacy, mindfulness, social skills and spiritual development. This also supports the “Personal Development” and “Behaviour and Attitude” aspects required under the Ofsted Inspection Framework, as well as significantly contributing to the school’s Safeguarding and Equality Duties, the Government’s British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children.

It is designed as a whole school approach, with all year groups working on the same theme (Puzzle) at the same time at their own level. *The only exception to this is found in Year 3 where Healthy Me and Dreams and Goals are taught in reverse sequence in order to make meaningful links with their Healthy Eating topic.* There are six Puzzles (half-term units of work) and each year group is taught one lesson per week. All lessons are delivered in an age- and stage-appropriate way so that they meet children’s needs.

Equality

This policy will inform the school’s Equalities Plan.

The DfE Guidance 2019 (p. 15) states, “Schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect. Schools must ensure they comply with the relevant provisions of the Equality Act 2010 under which sexual orientation and gender reassignment are amongst the protected characteristics...”

The teaching in school reflects the rich and diverse nature of our families and communities. Resources such as the parent leaflet; ‘Including and valuing all children. What does Jigsaw teach about LGBT+ relationships?’ can be found on the school website and shows how this is integrated as a natural part of the curriculum.

At River Primary School we promote respect for all and value every child and their family. We also respect the right of our children, their families and our staff, to hold beliefs, religious or otherwise, and understand that sometimes these may be in tension with our approach to some aspects of Relationships, Health and Sex Education.

Statutory Relationships and Health Education

“The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019, made under sections 34 and 35 of the Children and Social Work Act 2017, make Relationships Education compulsory for all pupils receiving primary education...They also make Health Education compulsory in all schools except independent schools. Personal, Social, Health and Economic Education(PSHE) continues to be compulsory in independent schools.”

DfE Guidance p.8

“Today’s children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting

opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way.”

“This is why we have made Relationships Education compulsory in all primary schools in England...as well as making Health Education compulsory in all state-funded schools.”

“In primary schools, we want the subjects to put in place the key building blocks of healthy, respectful relationships, focusing on family and friendships, in all contexts, including online. This will sit alongside the essential understanding of how to be healthy.”

“These subjects represent a huge opportunity to help our children and young people develop. The knowledge and attributes gained will support their own, and others’ wellbeing and attainment and help young people to become successful and happy adults who make a meaningful contribution to society.”

Secretary of State Foreword DfE Guidance 2019 p.4-5

“Schools are free to determine how to deliver the content set out in the DfE guidance 2019 in the context of a broad and balanced curriculum. Effective teaching in these subjects will ensure that core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way, within a planned programme of lessons.”

DfE Guidance p.8

“All schools must have in place a written policy for Relationships Education and RSE.”

DfE Guidance p.11

To ensure progression and a spiral curriculum we use Jigsaw as our chosen teaching and learning programme and tailor it to meet children’s needs. The mapping document: Jigsaw 3-11 and statutory Relationships and Health Education, shows exactly how Jigsaw and therefore our school, meets the statutory Relationships and Health Education requirements.

Our PSHE policy is informed by existing DfE guidance:

- [Keeping Children Safe in Education](#) (statutory guidance)
- [Respectful School Communities: Self Review and Signposting Tool](#) (a tool to support a whole school approach that promotes respect and discipline)
- [Behaviour and Discipline in Schools](#) (advice for schools, including advice for appropriate behaviour between pupils)
- [Equality Act 2010 and schools](#)
- [SEND code of practice: 0 to 25 years](#) (statutory guidance)
- [Alternative Provision](#) (statutory guidance)
- [Mental Health and Behaviour in Schools](#) (advice for schools)
- [Preventing and Tackling Bullying](#) (advice for schools, including advice on cyberbullying)
- [Sexual violence and sexual harassment between children in schools](#) (advice for schools)

- [The Equality and Human Rights Commission Advice and Guidance](#) (provides advice on avoiding discrimination in a variety of educational contexts)
- [Promoting Fundamental British Values as part of SMSC in schools](#) (guidance for maintained schools on promoting basic important British values as part of pupils' spiritual, moral, social and cultural (SMSC))
- [SMSC requirements for independent schools](#) (guidance for independent schools on how they should support pupils' spiritual, moral, social and cultural development).

The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

What do we teach when and who teaches it?

Whole-school approach

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

Term	Puzzle (Unit)	Content
Autumn 1:	Being Me in My World	Includes understanding my own identity and how I fit well in the class, school and global community. Jigsaw Charter established.
Autumn 2:	Celebrating Difference	Includes anti-bullying (cyber and homophobic bullying included) and understanding
Spring 1:	Dreams and Goals	Includes goal-setting, aspirations, who do I want to become and what would I like to do for work and to contribute to society
Spring 2:	Healthy Me	Includes drugs and alcohol education, self-esteem and confidence as well as healthy lifestyle choices, sleep, nutrition, rest and exercise
Summer 1:	Relationships	Includes understanding friendship, family and other relationships, conflict resolution and communication skills, bereavement and loss
Summer 2:	Changing Me	Includes Relationships and Sex Education in the context of coping positively with change

At River Primary School we teach PSHE each week in order to embed PSHE knowledge and skills in a developmental and age-appropriate way, we have carefully considered the curriculum so that the content is introduced at a time when we consider it best meets the needs of our children.

The lessons are reinforced and enhanced in many ways:

Assemblies and collective worship, praise and reward system, through relationships child to child, adult to child and adult to adult across the school. We aim to 'live' what is learnt and apply it to everyday situations in the school community.

Class teachers deliver the weekly lessons to their own classes.

Relationships Education

What does the DfE statutory guidance on Relationships Education expect children to know by the time they leave primary school?

Relationships Education in primary schools will cover 'Families and people who care for me', 'Caring friendships', 'Respectful relationships', 'Online relationships', and 'Being safe'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Relationships Puzzle (unit) in Jigsaw covers most of the statutory Relationships Education, some of the outcomes are also taught elsewhere in Jigsaw e.g. the Celebrating Difference Puzzle helps children appreciate that there are many types of family composition and that each is important to the children involved. This holistic approach ensures the learning is reinforced through the year and across the curriculum.

Health Education

What does the DfE statutory guidance on Health Education expect children to know by the time they leave primary school?

Health Education in primary schools will cover 'Mental wellbeing', 'Internet safety and harms', 'Physical health and fitness', 'Healthy eating', 'Drugs, alcohol and tobacco', 'Health and prevention', 'Basic First Aid', 'Changing adolescent body'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Healthy Me Puzzle (unit) in Jigsaw covers most of the statutory Health Education, some of the outcomes are taught elsewhere in Jigsaw e.g. emotional and mental health is nurtured every lesson, social skills are grown every lesson through the Connect us activity and respect is enhanced through the use of the Jigsaw Charter.

Teaching children about puberty is now a statutory requirement which sits within the Health Education part of the DfE guidance within the 'Changing adolescent body' strand, and in Jigsaw this is taught as part of the Changing Me Puzzle (unit).

Sex Education

At River Primary School, we believe children should understand the facts about human reproduction before they leave primary school. Effective SRE can make a significant contribution to the development of the personal skills needed by pupils if they are to establish and maintain positive relationships. It is important that children know how to keep themselves safe, are able to resist peer pressure and are informed through knowledge rather than influenced by misconceptions. It also enables children and young people to make responsible and informed decisions about their health and well-being.

The DfE Guidance 2019 (p.23) recommends that all primary schools 'have a sex education programme tailored to the age and the physical and emotional maturity of the pupils. However, 'Sex Education is not compulsory in primary schools'. (p. 23)

Schools are to determine the content of sex education at primary school. Sex education 'should ensure that both boys and girls are prepared for the changes that adolescence brings and – drawing on knowledge of the human life cycle set out in the national curriculum for science - how a baby is conceived and born'.

We define Sex Education as understanding the process of human reproduction. We have chosen to teach this element within our PSHE curriculum in Year 6.

An important part of the Jigsaw PSHE programme is delivered through the 'Relationships' and 'Changing Me' puzzle pieces which are covered in the summer term.

There are four main aims of teaching RSE:

- To enable children to understand and respect their bodies
- To help children develop positive and healthy relationships appropriate to their age and development
- To support children to have positive self-esteem and body image
- To empower them to be safe and safeguarded.

Each year group will be taught appropriate to their age and developmental stage. If a question from a child arises and the teacher feels it would be inappropriate to answer, (for example, because of its mature or explicit nature), this information will be shared with their parents by the child's class teacher. The question will not be answered to the child or class if it is outside the remit of that year group's programme.

Below is a summary of RSE coverage within the Jigsaw scheme, which we have personalised for children at our school:

- Foundation Stage - Growing up: how we have changed since we were babies
- Year 1 –Basic life cycles of animals (e.g. frog). Knowing that humans grow from young to old. Knowing that what is under our pants is special, important and private. Use the NSPCC 'Pants are Private' message.
- Year 2 - Boys' and girls' bodies; body parts and respecting privacy (which parts of the body are private and why this is)
- Year 3 - How babies grow and survive e.g diagram stages of development, scan pictures (not conception or child birth).
- Year 4 - Body changes in boys and girls (cleanliness and hygiene) and menstruation
- Year 5 - Puberty for boys and girls – physical and emotional changes
- Year 6 - Puberty for boys and girls and understanding conception to birth of a baby

Parents' right to request their child be excused from Sex Education

At River Primary School, puberty is taught as a statutory requirement of Health Education and covered by our Jigsaw PSHE Programme in the 'Changing Me' Puzzle (unit). We conclude that sex education refers to human reproduction, and therefore inform parents of their right to request their child be withdrawn from the PSHE lessons that explicitly teach this part of the Jigsaw changing me unit.

The school will inform parents of the right to withdraw children from lessons relating to conception and child birth by letter before this topic is taught in school. We hope parents would talk to the school before taking this decision and we are happy to share the content in more detail.

Teaching Sensitive Content:

Sensitive issues are certain to arise in learning from real-life experience. Teachers will be prepared to handle personal issues arising from the work, to deal sensitively with, and to follow up appropriately, disclosures made in a group or individual setting. Issues that we address that are likely to be sensitive because they have a political, social or personal impact or deal with values and beliefs include: family lifestyles and values, physical and medical issues, financial issues, bullying and bereavement.

Teachers will take all reasonable, practical steps to ensure that, where political or controversial issues arise as part of learning, children are provided with a balanced presentation of opposing views. Teachers will adopt strategies that seek to avoid bias on their part and will teach pupils how to recognise bias and evaluate evidence. Teachers will seek to establish a classroom climate in which all pupils are free from any fear of expressing reasonable points of view that contradict those held either by their class teachers or their peers.

Answering Difficult Questions and Sensitive Issues

Staff members are aware that views around SRE- and Drug and Alcohol Education-related issues are varied. However, while personal views are respected, all SRE and Drug and Alcohol Education issues are taught without bias based on Jigsaw resources. Topics are presented using a variety of views and beliefs so that pupils are able to form their own, informed opinions but also respect that others have the right to a different opinion.

Both formal and informal SRE and Drug and Alcohol Education arising from pupils' questions are answered according to the age and maturity of the pupil(s) concerned. Questions do not have to be answered directly, and can be addressed individually later, or teachers will guide children to talk about their concerns at home and will alert parents if appropriate to questions asked. The school believes that individual teachers must use their skill and discretion in this area and refer to the Designated Safeguarding Lead if they are concerned.

Our school believes that SRE and Drug and Alcohol Education should meet the needs of all pupils, answer appropriate questions and offer support. Issues such as Homophobic bullying is dealt with strongly yet sensitively. Where questions relate to sexual orientation or gender identity a sensitive and reassuring approach is used and the school could offer a range of supportive measures as appropriate.

Any advice or guidance around subjects or sensitive questions should be directed to the PSHE subject leader who will provide support.

Monitoring and Review

The Learning and Development Team of the governing body monitors this policy on an annual basis. This team reports its findings and recommendations to the full governing body, as necessary, if the policy needs modification. The team gives serious consideration to any comments from parents about the PSHE (RSHE) programme, and will keep a record of all such comments. Governors scrutinise and ratify teaching materials to check they are in accordance with statutory requirements and the school's ethos.

Policy Review

This policy is reviewed annually.

Jigsaw PSHE supplementary documents needed to explain this policy:

- Jigsaw 3-11 and statutory Relationships and Health Education (mapping document)
- Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?

Relationships Education in Primary schools (Appendix) – DfE Guidance 2019

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults. The references R3/H5 etc can be cross-referenced on the Jigsaw mapping documents and Puzzle Maps to show which lessons throughout Jigsaw contribute to which statutory outcomes. All statutory outcomes are covered in the Jigsaw 3-11 Programme.

The guidance states that, by the end of primary school:

	Pupils should know...	How Jigsaw provides the solution
Families and people who care for me	• R1 that families are important for children growing up because they can give love, security and stability. • R2 the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives. • R3 that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care. • R4 that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up. • R5 that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong (Marriage in England and Wales is available to both opposite sex and same sex couples. The Marriage (Same Sex Couples) Act 2013 extended marriage to same sex couples in England and Wales. The ceremony through which a couple get married may be civil or religious). • R6 how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed	All of these aspects are covered in lessons within the Puzzles • Relationships • Changing Me • Celebrating Difference • Being Me in My World

Caring friendships	• R7 how important friendships are in making us feel happy and secure, and how people choose and make friends • R8 the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties • R9 that healthy friendships are positive and welcoming towards others and do not make others feel lonely or excluded • R10 that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right • R11 how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help and advice from others, if needed	
Respectful relationships	• R12 the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs • R13 practical steps they can take in a range of different contexts to improve or support respectful relationships • R14 the conventions of courtesy and manners • R15 the importance of self-respect and how this links to their own happiness • R16 that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority • R17 about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help • R18 what a stereotype is, and how stereotypes can be unfair, negative or destructive • R19 the importance of permission-seeking and giving in relationships with friends, peers and adults	
Online relationships	• R20 that people sometimes behave differently online, including by pretending to be someone they are not. • R21 that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous.	All of these aspects are covered in lessons within the Puzzles • Relationships

	• R22 the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. • R23 how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. • R24 how information and data is shared and used online.	• Changing Me • Celebrating Difference
Being safe	• R25 what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). • R26 about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe. • R27 that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact. • R28 how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know. • R29 how to recognise and report feelings of being unsafe or feeling bad about any adult. • R30 how to ask for advice or help for themselves or others, and to keep trying until they are heard, • R31 how to report concerns or abuse, and the vocabulary and confidence needed to do so. • R32 where to get advice e.g. family, school and/or other sources.	All of these aspects are covered in lessons within the Puzzles • Relationships • Changing Me • Celebrating Difference

Physical health and mental well-being education in Primary schools – DfE Guidance

The focus in primary school should be on teaching the characteristics of good physical health and mental wellbeing. Teachers should be clear that mental well-being is a normal part of daily life, in the same way as physical health.

By the end of primary school:

	Pupils should know	How Jigsaw provides the solution
Mental wellbeing	• H1 that mental wellbeing is a normal part of daily life, in the same way as physical health. • H2 that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations. • H3 how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings. • H4 how to judge whether what they are feeling and how they are behaving is appropriate and proportionate. • H5 the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness. • H6 simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests. • H7 isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support. • H8 that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being. • H9 where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online).	All of these aspects are covered in lessons within the Puzzles • Healthy Me • Relationships • Changing Me • Celebrating Difference

	• H10 it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.	
Internet safety and harms	• H11 that for most people the internet is an integral part of life and has many benefits. • H12 about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing. • H13 how to consider the effect of their online actions on others and knowhow to recognise and display respectful behaviour online and the importance of keeping personal information private. • H14 why social media, some computer games and online gaming, for example, are age restricted. • H15 that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. • H16 how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted. • H17 where and how to report concerns and get support with issues online.	All of these aspects are covered in lessons within the Puzzles • Relationships • Healthy Me
Physical health and fitness	• H18 the characteristics and mental and physical benefits of an active lifestyle. • H19 the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise. • H20 the risks associated with an inactive lifestyle (including obesity). • H21 how and when to seek support including which adults to speak to in school if they are worried about their health.	All of these aspects are covered in lessons within the Puzzles • Healthy Me
Healthy eating	• H22 what constitutes a healthy diet (including understanding calories and other nutritional content).	All of these aspects are covered in lessons within the Puzzles

	• H23 the principles of planning and preparing a range of healthy meals. • H24 the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).	• Healthy Me
Drugs, alcohol and tobacco	• H25 the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking	
Health and prevention	• H26 how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body. • H27 about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer. • H28 the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn. • H29 about dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist. • H30 about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing. • H31 the facts and science relating to immunisation and vaccination	All of these aspects are covered in lessons within the Puzzles • Healthy Me
Basic first aid	• H32 how to make a clear and efficient call to emergency services if necessary. • H33 concepts of basic first-aid, for example dealing with common injuries, including head injuries.	All of these aspects are covered in lessons within the Puzzles • Healthy Me
Changing adolescent body	• H34 key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes • H35 about menstrual wellbeing including the key facts about the menstrual cycle.	All of these aspects are covered in lessons within the Puzzles • Changing Me • Healthy Me
