

Year 1 Home Learning Grid

Childhood - Have the toys that you play with always been the same?

Draw a picture of your favourite toy.	Have a look in a toy catalogue – can you cut out some pictures of things you like?	Does anyone in your family have a toy which they had when they were younger?
Make a toy shop. Can you recognise and pay with coins?	Bring in a toy to talk about and display in our Toy Museum.	Look at some of the toys you have at home. Name the materials they are made from and describe their properties.
Print some shapes to create your own Christmas wrapping paper.	Play a game with a grown-up that they used to play as a child. e.g. card game, board game.	Find out about one of your first toys you played with.

The home learning grid gives a variety of creative tasks for the children to choose from, which link to their topic for the term. We suggest that children choose one to complete, however should they wish to complete more, we recommend no more than three. These tasks are optional and should be chosen in addition to, not instead of, the English and Maths key learning tasks.

Home learning is due in by the last day of term.
